Date: May 20

May I please have your attention for the end of day announcements. This is what you will hear every day at Shuswap Middle School. Today I will be talking about Shuswap Middle School and why it should be remembered. The Explorations, People, and last but not least thing to do!

Firstly I will be discussing about the Explorations that you can take. This Middle School has a big variety of Expos like Art, home, Economics, Band, Wood Shop and Guitar. My personal favorite has to be Art because in art you learn about different styles of art, Arttest, Lethercraft, painting, drawing, and Clay work. Now I will be passing information about band but just know that im in grade 6 so I do not know a lot about it. If you are in grade 7 you will have to do band but thankfully I've heard

good things about band. On your first day of band Mrs Beach will introduce you to all the instruments then you will be able to pick one. That's all I know so let's move on!

Secondly let's talk about people you will meet. First Mrs Edgell. She is our principal she is so nice and she's also fun to be around. Then there's Mr Detch he is very helpful with school work and when you get heart. I can not remember how many times he has helped when I have gotten heart. You will also Mr Henderson I'm very lucky to have him as my french and PE teacher. he is so cool! Once he let me and my friend clean the girl changing rooms. It was so fun! Now that I men chind friends you will

meet so many kids here and when I say many I mean it there are 600 kids so your bound to meet someone to be friends with

There are things to do. There are so many things to do like you could join a club. We have a lot of clubs like the rainbow club, Crochet, Chess, Many cultural. Then there's sports teams! You can join the volleyball team, floor hockey, basketball and golf. Then your break time. It's 25 minutes so that should be enough time to rest up after a test. We also have something called hot lunch. Almost every day there's hot lunch, but my favorite is sushi bowl it's so good

Finally in conclusion this is why I think SMS should be remembered as the best school in

Q3. With your teachers permission
you may be dismissed.

Are you scared to come to Shuswap middle school? WELL YOU SHOULDN'T BE!!! Here at SMS we prioritize the well beings in students and making sure they feel safe.

Today I will be stating reasons why SMS should be remembered, like the Explorations, activities, clubs you can join, and people you may meet.

Firstly I will be talking

about the Exploration. If you
don't know what Explorations is
(also known as Expo) it is classes
you can take. These classes are
Home Ec, guitar band, wood shop
and Art. My personal favourite
Expo's are Home Ec and Art.

I like Home Ec because I get
to eat LOT'S of food and I
really liked Art because I get
to show off my amazing art
skills, I'm just joking but I actually
like it because I get to do so many

cool projects.

Secondly, why I feel SMS should be remembered is because the things this school has to provide is lots of sport and clubs. Some clubs you can join is crocheted club, chess club, coding club, and theatre club which personally I love theatre and there are A LOT more clubs and if there isn't a club you want to join you can join a sport. There are just so many sports

You can join and it would
take me all day if I say them
all so I'm just gonna say that
you will stay busy with the
sports.

Lastly, you may be wondering
"SMS sounds cool and all but
what if the people there are
rude?" Well most people here
are some of the nicest people
you will meet. I am quite shy
but I still made lots of friends.

because everyone is just so
sweet and generous. I can't
tell you the students you will
meet but I can tell you some
teachers you might meet. They
are Mrs. Ironside, Ms. Redline, Mr.
Henderson; Geoff, Ms. Salm, Mrs
Egell, Mr. Petch and so many
more. Some teachers I have connected
to are Krista, Mrs. Ironside, Mrs
Redline and Mrs. Kallies.

In conclusion after I told

you about the Expos you
can be in, the sports/clubs
you can join and the people
you may meet I hope I
have convinced you about not
being scared to come to SMS
anymore. See you next time!!!

!!

SMS is by far better than elementary school. A few reasons why it is better are, all the different explorations (expo). I like that there is a expo for everyone. You are put with a group of people from every class in your team, through out the year you will rotate between four different expos, they are woodwork, home.ec, art, music, and for grade eights only they have robotics. My favourite expo is woodwork with Mr. Out. The second thing that makes SMS better is the lockers. Upstairs there are only half lockers, a few half lockers are downstairs. In most elementary schools they only have hooks. Hooks don't keep your belongings safe but lockers do. The lockers here at SMS are metal and they are painted a light blue. At the beginning of the school year you will receive a lock, you can take the lock home and practice. At first it was hard to

unlock, slowly as time went on I have almost forgoten my locker code. completely, my hand just knows what to do. The third best thing about SMS are the teachers and the CEAs. Although I have only been here for a year my favourite teachers are Mrs. Stockenburg, Mrs. G, Mrs. Perwit, and Mr. Out. My favourite CEAs are Jamie, Geoff, and Ms. Teresa. Teams are another fun but competitive thing about SMS. Each cohort is made up of three classes every group gets its own colour. Purple team is by far the best team. Out of all the different schools I have learned at, SMS is the best one yet!
